(Ronald McCown)

Goodnight all you angel band  
Lord that sleep hold to my hand  
I'm just a kid again like I used to be.

I haven't learned the single thing  
I'm back and forth just like a swing  
I've got the same old song to sing  
Took a look at me.

I'm just somebody going my way  
I know that's much about tomorrow  
As I learned about today.

So I'll go my merry way  
And when there's nothing left to say  
Guess I'll just go on out and play  
Lord, take a look at me.

I haven't closed a single door  
I'm just the way I was before  
I can fall in love once more  
Would you look at me?

Guess you could say that I'm a clown  
But I can make the world go round  
I'm makin' my own peculiar sound  
Take a look at me.

I'm just somebody going my way  
I know that's much about tomorrow  
As I learned about today.

So I'll go my merry way  
And when there's nothing left to say  
Guess I'll just go on out and play  
Lord, take a look at me...
