Hookups got what you want
Strap-ons got what you need
Think of golf and new skateboards
Used females and killing sprees
War on History, what you got now
War on society, what you're loosing
War on your lost world baby
Fighting wars for nothing
Stars and stripes fall to my feet
Digital world ran away
Cyber planet on it's knees
A little chip speaks for no one
Robots love Human Beings
War on History, what you got now
War on society, what you're loosing
War on your lost world baby
