Johny E commie won't your flag come down
World economy's flag came down
People killed to save this town
Sacrifices to keep us down
They say the world, has got it wrong
Mass information is forced on us all
The great thinkers got you in a box, you can't get out
And what's the point, if we just wanna rock
John E. Commie wont your flag come down
World economy no longer around
People killed to save this town
Sacrifices to keep us down
Get drunk to get away, they lock you up
This can't be right man, how I grew up
Civilized anarchy at it's dawn, it won't be long
Keep having wars since the laws begun
Take down the walls, and plow all the lawns
Abolish all the laws and melt down the guns
But when were androids will it matter anymore
And what is wars for if no one cares
John E. Commie your flag come down
World economy no longer around
Sacrifices to keep us down
People killed to save this town
I need a drink of some cold history
I gotta wash my sin of hypocrisy
