Rock Little girl you know what I mean  
Pretty soon shell be 17  
Born to be a rock stars honey  
Look out now she's a rock n roll queen  
I'd like to have your problems  
Nothing left but rock n roll  
A piece of life they call it justice  
Right it's rock n roll  
She's got a date  
Going to parties, staying out late  
Can I use your car tonight  
I'm gonna love her with all of my might  
I'd like to have your parties  
A little piece of rock n roll  
Drink a beer you live forever  
Right it's rock n roll  
Bass in flames and the singer fighting  
Slide on glass right off the stage  
Driving drunk, it's a right of drugs  
And sex, and lust  
It's rock n roll  
Hope you're alright  
Cause me and the guys are rocking all night  
Put some money in the jukebox honey  
Now the street lights got her name  
I'd love to have your parties  
Hope the day will stay away  
I'd like to live for never  
Right it's rock n roll
