### "Two Nations"

Two nations divided  
By a common language  
And about two hundred years of new songs and  
dances  
But the difference is language  
Or just the bits you got wrong  
'Cause we were the ones who invented the language

Sorry, oi, that's just my idea of a joke  
But you guys are different to us across the pond folk  
And I keep having to say that I'm only joking  
In New York when I have to buy fags on the road, oi  
Biggy man, god bless America and that  
But you lot keep killing all your best talent  
We build up our stars and then papers sweep on them  
And you build on stars and maniacs shoot them  
I don't know much about nines and Mac's  
But we still got 22's we're inclined to pack  
And I much prefer the profit margin nowadays  
And crystal meth, it's all hype with crack  
It was no shock to me when we flew to the door  
At the Nas gig where the mans were shooting in a war  
Since it got reported in the latest news story  
That London is now more dangerous than New York

Two nations divided  
By a common language  
And about two hundred years of new songs and  
dances  
But the difference is language  
Or just the bits you got wrong  
'Cause we were the ones who invented the language, oi

Understated is how we prefer to be  
That's why I've sold three millions and you've never  
heard of me  
The paparazzi shoot me the the girls all loose on me  
But don't shoot idols, we fight football rivalry  
The work wac means to cum back home  
And I wrote the ten wac commandments on my own

I was in front of the bloke shooting at the Nas show  
But they weren't shooting at him it was honor that night  
though  
We don't shoot idols happily shoot instead  
Up my road the police just shot a youth dead  
'Cause they guessed he might of been a bit of a  
terrorist  
Does this bomb look big in this bag then but we love  
Biggy, Johnny Cash and Stevie Wonder  
It's no Biggy we got no cash and its no wonder  
'Cause I'm proud we gave you people like John Lennon  
Even though you shot him as well

Two nations divided  
By a common language  
And about two hundred years of new songs and  
dances  
But the difference is language  
Or just the bits you got wrong  
'Cause we were the ones who invented the language
