"Got Myself Together"

At the speed of light communication,
Rushing through the windows in my mind,
Searching for a random destination,
Running from the place I left behind,

Yeah I got my, got myself together,
The day that you laid your eyes on me,
And nothing, nothing could be better,
Baby than to hold you close to me,

Come on up and catch the revolution,
Reach across the distance far and wide,
We're chasing down the final resolution,
It's echoing across the mountain-side,

Come on and get your, get yourself together,
Take the unexpected point of view,
Cause there is something, something that is better,
Baby and it's there for me and you,

One more time for those in desperation,
Hanging on for someone to arrive,
Sweeping through the maze of information,
Wondering how it feels to be alive,

And we must keep our, keep ourselves together,
Forever now until the day is done,
Cause there is nothing, nothing that is better,
Underneath the shadow of the sun,

Stay with me, stay with me,
Who knows which way the wind will blow?
Come with me, come with me,
There's still such a long way to go,

But yeah I got my, got myself together,
The day that you laid your eyes on me,
And nothing, nothing could be better,
Baby than to hold you close to me
