"Got You Last"

I'm bringing back the rock.
So put back the soul.
We got the songs you feel right to the bone.
We're out of control.
No matter who you know or where you go,
There must be more to songs we sing but no one has to
know.
We like it fast.

BANG! BANG!
I got you last.

We're gonna take that lonely road,
Play that lonely show,
And no one has to go.
We're gonna sing that lonely song...
So turn that radio on and turn that radio up!

I'm bringing back the rock.
