

The Stremes

"This Conversation"

Visit "[This Conversation](#)" on MotoLyrics.com

I heard a ghost of your voice
Long after you had left the room
Couldnt make out the words
The laugh was unmistakably you
And how will I ever get the sound from you
Out of my head
I guess that I should only be so lucky

And I saw my shadow next to yours
Slowly fade away
And I saw my shadow next to yours
Just fade away

We've had this convetrsation
So many times before
And I know that you are tired
Of the same questions
But maybe if I keep asking them
The sounds from your mouth will
Form words that I want to hear

And I saw my shadow next to yours
Slowly fade away
And I saw my shadow next to yours
Just fade away
