Void eyes something went wrong
In your mind you have gone
Void eyes I saw the change
You're coming round again

Hey you been here before
Face to face with the floor
I see I see your stains
Up against the wall

Tonight you don't know anything at all
Tomorrow you won't find what you were looking for

Void eyes it's been a long time
Since you crossed that line
Come back Danny Boy
We leave it all behind

Tonight you don't know anything at all
Tomorrow you won't find what you were looking for

Void eyes something went wrong
In your mind you have gone
Void eyes I saw the change
You're coming down again
