Tell me your name and then walk away  
Into the night into the night  
Feelings are high and I lose the way  
Under the light under the light  
The light

You're bleeding me dry and I try to run  
Where do I go? where do I go?  
You're pushing my veins and you're taking me on  
Leaving me cold leaving me cold  
You leave me cold

It's you inside  
It's you in my mind

Into the flame and then fade to grey  
Always the same always the same  
You turn around and I will wait again  
I will remain I will remain

Walk away  
Away  
Away from me  
Walk away  
Away  
Away

It's you inside  
It's you in my mind

Into the flame and then fade to grey  
Always the same always the same  
You turn around and I will wait again  
I will remain I will remain
