I walked on through the world today
Everything was turned to grey
I searched down all the familiar streets
Where you used to be
When it was you and me
You and me

The seasons turn and the times they change
Nothing is that will remain
So let it burn so let it be
The way it used to be
When it was you and me
You and me

Help me please my hands are tied
My heart is lost my eyes are wide
If you stand in resplendent light
I am in the darkest night

These waves that pull me underneath
That crush me down won't let me breathe
I'd give it all if I could reach
And pull you back to me
Back to what it used to be
Like it was when it was you and me
When it was you and me
When it was you and me
You and me

When it was you and me
When it was you and me

When it was you and me
When it was you and me
