Close my eyes - see your reflection
In my life - you always are
Now I know my true direction
Cause I see your shining star

Iâll never fall in love again
You are the one I need
Eye to eye and face to face

Hold me-
You donât have to go this way
Hold me-
Donât look back

Been so lang - to get the reception
Of your smile - i keep in view

Iâll never fall in love again
You are the one i need
Eye to eye and face to face

Hold me-
You donât have to go this way
Hold me-
Donât look back

All your love and sweet affection
Makes me feel so close to you
