The only thing worse
Than losing the one thing that you love
Is having the one thing that you love,
Turned into everything that you fucking hate
It all just falls apart from there

And yes i loved you,
And now it's all falling apart
And yes i loved you,
And the pieces come crashing down on me.
(x2)

The only thing worse
Than losing the one thing that you love
Is having the one thing that you love,
Turned into everything that you fucking hate.
It all just falls apart from there.
