[Nathaniel Lee]

I dreamt, I saw my girl last night  
Alive as you and me  
I say: "But Jenny, you are dead"  
"I'll never die" said she  
"I missed you every day" said I  
She standing by my bed.  
"You're left me very long ago"  
Jane says "But I ain't dead"  
In the night, she's call me.  
In the night, she's came to me.

And standing there as gentle as life  
And smiling with her eyes  
She said "Then you have broke my heart,  
Now time to pay the price"

In the night, she's call me.  
In the night, she's came to me.  
In the night.
