Decided to take the old stock route  
Into town, and I thought of you  
That time we pulled over at the corner of nowhere

We both knocked one too many down  
Couldn't drive home or turn around  
So we camped right there  
And now all of a sudden  
That other seat seemed so bare  
I'd just been cruisin' by myself until you jumped on in  
And with the mindows down I felt just about everything

### CHORUS

You taught me how to close my eyes and let go of the  
wheel  
And if we went off track, you'd pull us back  
It was all part of the deal  
And I was fine before you came  
But now this drivin's not the same  
I don't wanna break down here  
But I can't get back into gear

Curled up underneath the stars  
That big open sky was ours  
Fell asleep with the music on  
Guess we lost track  
Next morning went to start her up  
In a frost I had to laugh  
Flat as a tack  
Oh but what I would do, to have that back

And now I; m feelin's omething I just don't quite  
recognise  
And you're not here to tell me everything will be alright

### CHORUS

You taught me how to close my eyes and let go of the  
wheel  
And if we went off track, you'd pull us back  
It was all part of the deal  
And I was fine before you came  
But now this drivin's not the same

I don't wanna break down here  
But I can't get back into gear

CHORUS

You taught me how to close my eyes and let go of the  
wheel  
And if we went off track, you'd pull us back  
It was all part of the deal  
And I was fine before you came  
But now this drivin's not the same  
I don't wanna break down here  
But I can't get back into gear
