Hear the dogs chains hit the ground
Let em take off, watch em prance around
Four wheelers right and ready to go
On jump the dogs, on goes my Drizabone

My hands are cold, my nose is red
But this bit of dirt, it's what gets me out of bed
Been pulling lambs and checking ewes
Saving lives and saving dollars too

Time for a cup of tea and a piece of carrot cake
Watch the morning news, see who's got in strife today

Not me not here on this ground
It's a good spot here, it's a great spot here
I'll take this life and wash it down
With a good cold beer
It's a good spot here, It's a good spot here

Spend an hour training pups
Watch their eyes light up, when they see that first
sheep run
Spring is on it's way it seems
The sheep are fat, the grass is green

Set up the yards for marking lambs
That's good real work, I can see it on my hands
Never drank a beer that taste so sweet when the day is
done
And I put up my worn out feet

Vegies in the oven, the house is warm
Another dose of news, people getting in the wrong

Chorus

Here is where I'm suppose to be
Here has become a part of me
Part of being happy, is knowing what you've got
I stop to look around me and can't believe my luck

It's a good spot here on this ground

I'll take this life and wash it down
With a good cold beer
It's a good spot here, It's a good spot here,
It's a good spot here
