As a measure of the soul, ever done run bring your
fear
You and me, we got the same air goin', breathin' here

You got send to toad water, you been
Like someone left to cold half breathin'
Maybe me and the queen could take another over
Walk it away, yeah

Oh little, wish it away
Well I got time to wish away
Little, wish it away

Head look about the free, like a dumb mum bring a
wheel
I might take the tee mind over, load and see

I done kicked a hole wide lookin', a gapin' half to free
mind mover
Maybe me and the queen can give a side order
Load it away, well

Oh little, wish it away
Well I got time to wish away
Little, wish it away

She don't hang
She don't hang
She don't hang
She don't hang
