Forgive me I am sorry.
More than anyone could know.
You'll sit and wait forever but I am not there.
These words will never break me.
This is never going to change.
Outcomes remain the same.

Sometimes I sit and night and think about the way it
used to be.
Never quite what you wanted but good enough for me.

Forgive me I am sorry.
More than I could ever show.
I'll sit and wait forever but you are not there.
These words will never break thee.
This is never going to change.
Outcomes remain the same. Listen to me.

Sometimes I sit and night and think about the way it
used to be.
Never quite what you wanted but good enough for me
