When I touch your skin you seem to tremble so.
Can I taste your wrists? My own are growing cold.
Can you feel my breath run, down your slender neck?
Do I make you crazy and are you tired yet?

Ease your mind and let your heart be mine

Close your eyes now tightly. Try to keep them closed.
I want to taste your fingers. I need to bite your toes.
Spread your arms out like an angel in my sheets.
It won't be long now before, both our shadows meet

Ease your mind and let your heart be mine
Relax. Let your body fall into desire.

Let your body go. Your body slip away. Fall into desire
