Because I love him (x2)

Somebody please, please help me (x2)

My baby is leaving me
And I'm in misery
Somebody send him back to me

'Cause I love him
And I need, need him
And I want him
for my own

It seems that all my life
I wanted to be his wife
And now, now it seems
That all, all of my dreams
were in vain

Somebody please, please tell him (x2)
That he has done me wrong
Don't stay away too long
He means the world to me

'Cause I love him
And I need, need him
And I want him
for my own
