(William "Smokey" Robinson)

You and the night
Make a dream that I could never beat
You make reality seemed like a dream
With one kiss so sweet
I've give in quickly to any suggestion
If you wanna be with me over and over
Suggest it now, over and over
Caress me now closer and closer
Over and over again

Time and again by myself alone
With just a thought of you
I can't feel that joy that's only melt
By its trace and few
You just continue to thrill me
Even when you don't intend to over and over
Hmm, continuing over and over
Love, when you get closer and closer
Over and over again (again, again)

Round and round it goes like a carousel
No sense fighting the feeling when I'm with you
There is nothing I can do
(Ahhhhhhh... ahhhhhhhhhhhhhhh)
I'm just give in to the beautiful changes
We've already been through over and over
Keeps happening over and over
You trapped me in closer and closer
Over and over again (again, again)

Over and over
Control me now over and over
Come hold me now closer and closer
Over and over again (again, again)
