Now you're moving on up, pretty baby
You're leaving me behind
Everybody seems to love you
Ohh, you're doing just fine, fine, fine

Take away your good looks, darling, and all your fancy
clothes
Hey, I bet you wanna try it, baby
Try it, honey, try it, darling, try it sweetheart
You'll see that nobody loves you but me
I can't keep telling you, darling, nobody loves you but
me

Hey, Ty
Now you tell me that you so busy
Ohh baby, and you ain't got much time
Oh, how well I remember, baby
When all your time was mine, mine, mine

Well, move on back 'cross the track, hey, where you
came from
Oh, why don't you just try it, baby?
Try it sweetie, try it honey, come on try it
You'll see nobody loves you but me
Nobody loves you but me, nobody loves you but me,
nobody

I really wanna hold you, oh baby, in my arms again
But I can't get close to you, baby, for all your lovin'
friends
Take away, take away, take away your name from the
[Incomprehensible]
You know where you come from so baby why don't you?
Here I am, try it sweetheart and you'll see nobody loves
you but me

[Incomprehensible]
You make me feel good when you're near
Ain't nobody gonna love you like I do
Nobody, nowhere, no, I don't believe it, no way
