Lover of mine gone to a faraway land  
Serving your country on some faraway sand  
If you should get no name  
Remember that your heart belongs to me

I'm sending you a picture  
To carry with you all the time  
So when you're feeling lonely  
It's something to remind you

I'm thinking of you constantly  
Remember that your hearts belongs to me, yeah

If a pretty girl should pass you by  
I won't mind if you give her the eye  
Or even if you give her a smile sometimes  
But keep your heart because your heart is mine  
Your heart is mine, your heart is mine

Lover of mine, if I could tell you how I yearn  
For the day to come when you will return from far  
across the sea  
So remember that your heart belongs to me, yeah  
Remember your heart belongs to me  
Far across the sea, but your heart it belongs, it belongs  
to only me  
Lover of mine
