Everytime I look I always see you there
Everytime I walk I see you standing by me
Everytime I try to cry
You always appear at the right time
Everytime oh, everytime everytime I see you
Everytime oh, everytime everytime I see you
I cry
Everytime I look I always see you there
Everytime I walk I see you standing by me
Everytime I try to cry
You always appear at the right time
Everytime oh, everytime everytime I see you
Everytime oh, everytime everytime I see you
I cry
