### "Call To The End"

Arise destroyer!  
It's the call to the end

By the force and the religion  
Has born the evil again

But through the stars  
The dream remain's  
You don't fade away

Over here althrough these wars  
We must be strong and keep fighting on

Please don't run away  
We've got a lot work to do  
To keep us feeling alive  
Would it be a dream come true?

The vew millennium will come  
And it must not be doomed  
And the will of ahnging must be  
Inside of you
