[Demo Version]

Can you think about it? Children dying everyday They can't get their away (Africa)

How can we close our eyes? Leave out their dreams and broken hearts They don't have a chance living in misery

Sometimes I turn the TV on And I feel like screaming Many people just like me Wait the time to fade away

Can you think about it?
A child cries for one day more
Cries with all her faith (dream on)

They don't deserve it And die without a hope to survive We have to believe and save Africa

People in the hole world that nothing can about it Try to help and bring their hope again Man of power turn thir back and kill in the silence People must forget them and go on
