I heard you went the other way
I heard you say the things you say
Don't get me wrong and you'll be right
Don't worry 'bout the one you love
But it's the
Dope lying
Damn tryin'
With everyone you know
Dope lying
I'm trying
To get you where you go
I heard you shot yourself again
I heard you never reached the end
Don't get me wrong and you'll be right
Don't worry 'bout your cigarette
Oh Love
Stay Love
I'll scratch at your door
And if you want me to
I'll stay up all night
