

The Take-Off

"Gloria"

Visit "[Gloria](#)" on MotoLyrics.com

I would like to meet you in the rain
Save me from this routine misery
Oh my love you don't need me
Around you
Everyone will go away
And leave you

But you can go home
And I can get clean
Sometimes
You're living alone
Somewhere out there

I will call you Gloria
Tonight

I would like to save you from all pain
And everyday you'd always be the same
Oh my love you don't need me
Around you
Everyone has gone away
And left me

[Pre-chorus]
[Chorus]

It's gonna take some time for me
You're gonna change your mind and see
It's gonna take some time to see
I've fallen
I've fallen

I will call you Gloria

It's gonna take some time
