I was just a boy with nowhere to go
Where ya gonna sleep kid?
I don't know
Well I went down there by the bay
But no one's hanging there today
Drank my pay away
And there's nothing left
It only gets worse when you give your best
Good times they are so few
It comes and goes and leaves you through
Down below ya
Never say I never warned ya
I've been on the phone to stall ya
Just 'bout everyday
Well, Hey!
I've been staying out all night
And I just thought that you should know
I'm a man of simple pleasures
Why don't we have a go?
She'll be fine
In record time
But hesitation's got me on a noose today
Hey!
I was just a boy with nothing left
The nights are worse but there's no best
Ran myself all ragged
All over town
Kill me dead
Hey!
Well I've been staying out all night
And I just thought that you should know
I'm a man of simple pleasures
Why don't we have a go?
She'll be fine
In record time
But hesitation's got me on the news today
Hey!
