Come on, Come on,
The fuels up and burning
Get up, Get up
Lets getaway
Come on, come on,
The music is pumping
Get out, Get out
Lets Getaway

We've come a long way
Why end it like this way.
Something that's just begun
Should be out having fun.
So lets get in their way
Don't stop, we'll last for days
We'll get this going down
As soon you come round

What a way!
To get this road trip started
Foot down as we all say
The Car has just departed!
Drinks up and music loud
Friends out we'll sing it proud
One ways the highway
This trip will never end
