I park my jeep by the sulfur creek
And we both climb in the backseat
We fall in beat with the rain
Believe me babe, Believe me babe
It's like 3WS just knows
As "Ebb Tide" flows from the radio
I'd have it no other way
Believe me babe
Don't leave me babe
I'll just Sleep it all away
Well so much for you
So much for you
Sleep - my favorite pastime
The one thing keeping ya off my mind
You gave me no reason or rhyme
To leave me babe
Believe me babe
I dream we never came undone
You, the one lover I really loved
Ne me quitte pas
Believe me babe
Don't leave me babe
I sleep through you like I do
I sleep through you like I do
I sleep through you like I do
Sleep it all away
I'll sleep through you like I do
I'll sleep through you like I always do
