

The Take-Off "Swing Swing"

Truth is told I'm open, to this wild craze
This thrill, this life, this game
We are just young hearts, wanting something more
That we all can't ignore.
So grab your passion, and feel the rhythm, to play this
wild craze.
Doubt the consequence, cut loose and don't feel tense,
to play this wild craze

Swing, swing, through your hips,
And sing out with your lips,
And feel it through your finger tips
Bring, bring, out your moves,
We're craving for the groove,
So tap your feet and feel foot loose

Taking risks is the first step, when you think, just blink
and do
Don't look back just follow through
With the choices that you choose, like the friends that
you thinks true
It's all you got to do
So grab your passion, and feel the rhythm, to play this
wild craze.
Doubt the consequence, cut loose and don't feel tense,
to play this wild craze

It's all you got to do
Tap your feet and feel foot loose
