The chemical fire
Is the tongue of a better kiss
The tangerine is the fire
Hurts like red roses can hurt

Acid and sweet
Flows the river inside me
Like the unbearable desire
Black thorns rise from the dirt

Spill this blood into your glass
And drink the light it keeps inside
Hurts my soul and breaks my heart
To see the life you leave behind

I wish somebody could help me
Breaking my soul and setting me free
Burning the fire of passion
Devil's lover

The seed of love
Is soaking in lust inside of me
Drowning lucidity deeper and deeper
How can a kiss turn white to red

Spill this blood into your glass
And drink the light it keeps inside
Hurts my soul and breaks my heart
To see the life you leave behind

(all this blood)
I wish somebody could help me
(all this blood is wine)
Breaking my soul and setting me free
(all the love)
Burning the fire of passion
(all the love is lust)
Devil's lover

I can tell, you're in hell
Just by the look in your eyes

Touch my hand, burn again
And try the last of your tries
