It's time that we  
had a little talk together  
Somethin's goin' on when I'm away from you

Now, when we kiss  
There's something that I miss  
Where's that lovin' touch that i used to love oh so much

Now we've been together for so long  
I can read you like a book  
You're actin' strange  
I can't stand the pain  
Are you too far gone to change?

Chorus:  
If you read between the lines  
(You just might find) Look and you might find  
That I'm never gonna leave you (that I'll never), never  
gonna leave you (Mmmm)

If you read between the lines (Whoa-oh-oh)  
Look and you might find  
That I'm never gonna leave you, never gonna leave you

Now I might have been  
Wrong every now and then  
Neglected you and put you through so many changes

I was tryin' to pursue  
A better life for me and you  
But misery loves company - try and understand

Now I'm just a man tryin' to do  
The very, very best I can  
But what's the use  
If you're runnin' loose  
You only get out, what you put in

Chorus:  
If you read between the lines  
(You just might find) Look and you might find

That I'm never gonna leave you (that I'll never), never  
gonna leave you (Mmmm)

If you read between the lines (Yes, you've captured my  
heart)

Look and you might find (from the very, very, very start  
'cause I)

That I'm never gonna leave you, never gonna leave you  
(Love ya. I'm never gonna go nowhere)

Chorus to fade
