This little girl of mine
I wanna say she's so fine
And each and every day
I make sure she has her way
We don't feel tight now
Although our hearts abound
I don't have to chase her all over town
My baby, she's always around

(chorus):

The girl's all right with me
You know (the girl's all right)
The girl's all right with me
You know (the girl's all right)

Now she's so good to me
I guess that's why I feel fancy free
Just to see the glow in her eyes
Makes me once again realize
I love her with all of my heart
And I know we'll never, never part
I never heard about her goin' or playin'
I guess that's why you always hear me saying:

(chorus)

(instrumental)

When I visit at her home
Other fellas never, never, never ring the phone
She lets them know just where they stand
She tells them all that I'm her man
And when we're out on a date
Other fellas wait till I walk away
They try to beat my time
But she tells all the men that she's mine, all mine

(repeat chorus and fade
