Moving through more cruel and untrue decades in time
"Global Warming" without warning, societies decline
Have we lost all sensibility?
Lost touch of reality, with chance and opportunity to
widen our eyes?
Lies, Lies, Lies see through those Media Lies
Lies, Lies defy those Media Lies
Lies, Lies deceiving Media... see through those Media
Lies
So where have you, where have you, where have you
gone to now?
When you said you'd, said you'd cause us no more
doubt?
Have we lost all sensibility?
Lost touch of reality, with chance and opportunity to
widen our eyes?
Lies, Lies, Lies see through those Media Lies
Lies, Lies defy those Media Lies
Lies, Lies, deceiving Media... I say
Lies, Lies, Lies see through those Media Lies
Lies, Lies defy those Media Lies
Lies, Lies, deceiving Media see through those Media
Lies...
When the dust begins to settle we'll find our way
Through the smoke and afterglow we can seal all fate
When the dust begins to settle we'll find our way
We can break, separate or deface those drapes
LIES, MEDIA LIES, MEDIA LIES
See through those Media... I say
Lies, Lies, Lies see through those Media Lies
Lies, Lies defy those Media Lies
Lies, Lies, deceiving Media... see through those Media
Lies
