Yeah
easy
guru
9th wonder
(1st verse)
yeah yeah
can't stop, wont stop
never intend to
they feel us inside
they calling em jitzu
back to new york
all the shit ive been through
some niggas saying they bark
but to me they just shitzus
down to the thoughts and the issues
all the principles, how to keep it official

cause you dont want no nigga have to grip that pistol
i bought the pistol
turn dudes to fish food
these dudes, want me looking all miserable
dont want me getting paper
go to jacob to spend a few
but i be in them interviews
talking bout how im in them coups
and how the tech will sping a nigga like a innerlube
fuck around get you flat like a innertube
poke you up just some of the shit im into
so fall back maybe you can get a clear view
all my life of how i stare through the rear view
