Wake and you'll be running back to me  
An endless game of hide and seek  
Now watch these people disappear  
Oh no...

When we all reach a compromise  
A myth from where we are derived  
Taking all our strength to gain  
The illusions of a modern fame  
The necromancy of

I've never seen such a valor. But I will never die.  
Reach for the stars  
But I'm a legend and I will never die.

All is lost in our lives, we have conquered it all  
Witches in the sky!  
You've surrendered yourself, surrendered your true  
love.  
Witches in the sky, witches in the sky!

When we all reach a compromise.  
In every fucking day  
A myth from where we are derived  
For our existence  
Taking all our strength to gain.  
In every single way  
The illusions of a modern fame.  
The necromancy of

All is lost in our lives, we have conquered it all  
Witches in the sky!  
You've surrendered yourself, surrendered your true  
love.  
Witches in the sky, witches in the sky!
