Hold, hold your tongue now  
And let them all listen to your silence  
Hold, hold your tongue now  
And let them all listen to your silence

Hold, hold your tongue now  
And let them all listen to your silence  
Hold, hold your tongue now  
And let them all listen to your silence

Hold, hold your tongue now  
And let them all listen to your silence

No need to listen to yourself  
Maybe this one will pass you by  
Or to anybody else

No need to listen to yourself  
Or to anybody else

No need to listen to yourself  
Or to anybody else

Hold, hold your tongue now  
And let them all listen to your silence
