"A Trail Of Tears"

The beaten trail speaks through me
They were taken from their homes to live in captivity
And I know it won't be long before
Their revenge speaks through me
This is my past that speaks through me
Execution of the most brutal order
In the history of America's corrupt border
This was a trail of exile
A trail of death
Now this is their song and I can hear them dance
The air is still frozen
I can see them breathe,
As their blood runs through my veins
Execution of the most brutal order
In the history of America's corrupt border
Execution
