While taking off your shirt you arch your back  
Remember thinking twice before I act  
I feel your arms, they press me; your lips are, against  
me  
My heart is on fire tonight  
I'm hoping all the words I say are right  
And every bit of your kiss leaves me so, defenseless

As I'm lying here you get down next to me  
Take my hand and touch my chest you say,  
"darling I can feel your heart,  
You make mine stop, and I'll make yours start"

As I'm lying here you get down next to me  
Take my hand and touch my chest you say,  
"darling I can feel your heart,  
You make mine stop, and I'll make yours start"

I watch your body move across the room  
Not really sure what I'm supposed to do  
But I feel it as you close in we go through the motions  
Your fingers through my hair, we're on the bed  
I follow all your moves the best I can  
And suddenly we're one and the same, yeah we're one  
and the same

As I'm lying here you get down next to me  
Take my hand and touch my chest you say,  
"darling I can feel your heart,  
You make mine stop, and I'll make yours start"

As I'm lying here you as you get down next to me  
Take my hand and touch my chest you say,  
"darling I can feel your heart,  
You make mine stop, and I'll make yours start"

You say  
I'll be  
Your first, your last  
Your heart never beat so fast

You say

It's for me  
Your first, your last  
Your heart never beat so fast
