

The Tontons

"Leon"

Visit "[Leon](#)" on MotoLyrics.com

I used to be
Light and love and everything
I used to see
People for what they were

I used to say
I'll never never never never be that way
But I was wrong, I was wrong
And I'm happy now that it's done

There were morals
Then there was me
Surveying the world from atop my tree
I was deprived and deranged
Giving all the good stuff and life away

I used to say
I'll never never never never be that way
But I was wrong, I was wrong
And I'm so happy now that it's done
Now that it's done, well

You better get
While the getting is good
You need to understand that it's all understood
You better take, while you can
Oh, you better take, you better take,
You better take, while you can
