Take long showers  
Just feel no pain  
Iâ€™m of a persuasive nature with something to sell  
Yeah everyone needs reason to step outside  
You know I complain when Iâ€™m bored as millions  
starve in the cold

I wish I hadnâ€™t decided to up these walls  
But I was losing interest like I tend to do  
Iâ€™m stalling, weâ€™re changing  
This was years in the making  
Myself at home wherever I go

Balmy Winterâ€™s got me twisted about like Iâ€™m tasting  
the end of the world  
So, I convert fear to motivation in hopes of adjustment  
to social change  
Letâ€™s make the game our career  
Iâ€™m such a slave to your trade

Get, get, get where youâ€™re going  
Get where youâ€™re going

I wish I hadnâ€™t decided to up these walls  
But I was losing interest like I tend to do  
Iâ€™m stalling, weâ€™re changing  
This was years in the making  
Myself at home wherever I go

Oh anything that I fault you for I am myself or wish I  
was  
Oh anything that I fault you for I am myself or wish I  
was

I wish I hadnâ€™t decided to up these walls  
But I was losing interest like I tend to do  
Iâ€™m stalling, weâ€™re changing  
This was years in the making  
Myself at home wherever I go  
Wherever I go, wherever I go
