Bumble bee, bumble bee, where you been so long

Bumble bee, bumble bee, where you been so long

You stung me this morning, I been restless all day long

I met my bumble bee this morning as he flying in the door

I met my bumble bee this morning as he flying in the door

And the way he stung me, he made me cry for more

Hmmmm, don't stay so long from me

Hmmmm, don't stay so long from me

You is my bumble bee, you got something that I really need

I'm gonna build me a bungal ow just for me and my bumble bee

I'm gonna build me a bungalow just for me and my bumble bee

Then I won't worry, I will have all the honey I need

He makes my honey, even now makes my comb

He makes my honey, even now makes my comb

It's all I want now my bumble bee just to stay at home
