You can quit me, do anything you want to do
Someday you'll want me and I won't want you
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

You's a man running from hand to hand
You can get you a woman, I got another man
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

You will mistreat me, and you won't do right
You can take it on back where you had it last night
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

Well, you can't be mine, somebody else's, too
I ain't gonna stand that way you do
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

Sho' as you's a married man and you got a wife
You keep running around here, you'll lose your life
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

That you had for me the other night
You can turn it around, bring it home tonight
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

When I was at home, I was with my man
Now you got me here, from hand to hand
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

Ain't no need of you walking around with your mouth
poked out
That is something just as well cut it out
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

You know when I met you from house to house
I know some of your women's had put you out
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

It wouldn't have been so bad, but you didn't have a
dime
That I wouldn't mind helping you, no man of mine
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do

Well, look-a here, what you expect for me to do?
Want me to be your mammy and your doctor, too
I'm talking about you
I'm talking about you
I'm talking about you
I don't care what you do
