I tell all you people, you can rest and eat
You don't have to worry about cookin', go to North
Memphis cafe and eat
I tell all you people, you can rest and eat
Because the North Memphis cafe got everything that
you really need

I don't buy no wood, even buy no coal
I go to North Memphis cafe and eat and don't be a
dope
I tell all you people, you can rest and eat
You don't have to worry about cookin', go to North
Memphis cafe and eat

I will tell y'all somethin', I don't change like the wind
If you go to North Memphis cafe eat you'll go back
again
I tell all you people, you can rest and eat
Because the North Memphis cafe got everything that
you really need

Now listen to me, good people, I don't aim to make you
mad
You go to North Memphis cafe and get somethin' you
never had
I tell all you people, you can rest and eat
Because the North Memphis cafe got everything that
you really need
