Hey operator, he speaks in a serious tone
I know you can hear me, I know you can heal me
Hey operator, he speaks in a serious tone
I know you can hear me, I know you can heal me

We control the night
We control the afterlife, baby
The afterlife, the afterlife

Let's just assume that we can resuscitate this life
I want you to know that part of us dies
And most of you will die

Two rescue breaths and a shot that will penetrate your
heart
Should get you to come back to us, right
Oh, won't you come back now
Won't you come back now

We control the night
We control the afterlife, baby
The afterlife, the afterlife
We control the night
We control the afterlife, baby

(We control the night
We control the afterlife, baby)
We control the night
We control the afterlife, baby
The afterlife, the afterlife
We control the night
We control the afterlife, baby
(The afterlife, the afterlife)
We control the night
We control the afterlife, baby
(The afterlife, the afterlife)
We control the night
We control the afterlife, baby
(The afterlife) the afterlife
