When all the sheep in your head can't count
When all the ghosts in your bed lie down
If ever your conscience could swear you were already
there
Breathe in, breathe out
'Cause all of the sheep in your head don't doubt
Don't doubt

And I will be there when it comes around
And I will be there when it goes around

Can you figure me out
Can you take me for a ride out now
For a ride out now

When all of the ash in your head falls out
When all of the teeth in your mouth hit ground
If ever your conscience could swear you were already
there
Breathe in, breathe out
And all of the ash in your head don't doubt
Don't doubt

And I will be there when it comes around
And I will be there when it goes around

Can you figure me out
Can you take me for a ride out now
For a ride out now
Can you figure me out
Can you take me for a ride out now
For a ride out now

Crawl before you run
Beg before you steal
Listen to your friends
Learn to love the sound of...

(Can you figure me out
Can you take me for a ride out now
For a ride out now)
Can you figure me out

Can you take me for a ride out now
Can you figure me out
Can you take me for a ride out now
For a ride out now

And all of the sheep in your head don't doubt
