My bones shake out of my skin
My eyes feel like giving in
If you struggle to catch your breath
Well, that's the only evidence

If I lie, it's because I'm a liar
If I die, it's because I'm on fire
So simple, yet elegant
And that's when we are evident

We are just the ones to let you down, let you down over
and over
Miles and microphones will let you down
Wish it was already over

If your heart beats in 4/4 time
And your mouth works before your mind
If your strength lies within your friends
Well, that's the only evidence

If I lie, it's because I'm a liar
If I die, it's because I'm on fire
So simple, yet elegant
And that's when we are evident

We are just the ones to let you down, let you down over
and over
Miles and microphones will let you down
Wish it was already over
Let you down
Wish it was already over
So let's go down
Let's go down drinking together
Together
Let's go down screaming

Of all the words we say
I leave this much for you
That in the end, the obvious is everything

We are just the ones to let you down, let you down over
and over

Miles and microphones will let you down
Wish it was already over
(We are, we are)
To let you down
Wish it was already over
(We are, we are)
To let you down
Wish it was already over

My bones shake out of my skin
My eyes feel like giving in
If you struggle to catch your breath
Well, that's the only evidence
