Little Pretty Thing you look so good, I wanna love you
like a lover should.
Sugar- lips taste so sweet, one kiss could knock me off
my feet. One night,
A night with you, to do the things that you want me to.
One night where you
Have laid, to spend the night where your dreams are
made. Thinkin' bout you
All night long, you know for me you can do no wrong.
Anytime you need my
Lovin', come on baby, I'm savin' it just for you.

Thinkin' 'bout you all night long, your love for me, it can
do no wrong.
Anytime you need my lovin', come on baby I'm savin' it
just for you. Little
Pretty Thing you look so fine, one night I'm gonna make
you mine. I wanna
Lay where you have laid, to spend the night where your
dreams were made.
